SUMMARY

Product strategist with **5+ years of experience** working across both **B2B SaaS product companies and IT services organisations** - spanning industries like **hospitality and oil & gas** - giving me a rare perspective on building products from the inside and shaping them as a strategic partner from the outside. I work closely with engineering, design, and business stakeholders to translate user needs into clear roadmaps and scalable solutions, with a growing specialisation in **AI-powered products that create real business value**.

WORK EXPERIENCE

Business Analyst – Gen AI Solutions

May 2024 – Present

e-Zest Digital Solutions

- Defined **AI use cases** and shaped **LLM prompt design strategies** across RAG-based solutions and multi-agent orchestration projects, achieving **85%+ query resolution** on conversational AI pilots and reducing client-reported manual effort by **35%**.
- Led **end-to-end product discovery and strategy** across multiple GenAI-powered B2B engagements spanning conversational AI, document intelligence, and analytics platforms — taking **3 pilots from problem definition to production** within the same engagement period.
- Translated emerging GenAI capabilities into prioritised product features and integration best practices, **directly influencing build decisions** across multiple client accounts and reducing time spent on unvalidated scope.
- Drove continuous user validation across client accounts, synthesising findings that **reduced scope rework by 30%** and **accelerated pilot timelines by 2–3 weeks** — keeping delivery on track without expanding engineering effort.
- Maintained a **4.2/5 client satisfaction score** across delivery milestones by ensuring alignment between business expectations, product scope, and engineering output throughout the engagement lifecycle.

Product Specialist

Feb 2022 – May 2024

Loyalty Juggernaut Inc

- Owned **feature discovery and roadmap prioritization** for a B2B loyalty SaaS platform serving **15+ enterprise clients**, driving a **25% improvement in feature adoption** through data-driven backlog management.
- Translated customer feedback and usage data into an **80+ item prioritized backlog**, reducing support escalations by **30%** and maintaining a **2-week sprint cadence** across engineering and design.
- Created **20+ low- and mid-fidelity wireframes**, collaborating with designers to deliver user-centric product flows validated through **10+ user research sessions**.
- Authored **40+ product specifications and release notes** across **12 feature releases**, reducing go-to-market cycle time by **20%**.
- Led **30+ customer-facing feature demos** and feedback sessions, accelerating iteration cycles and cutting post-release defects by **25%**.

Assistant Manager – Sales

Jun 2019 – Apr 2020

Sthene Engineers LLP

Managed **B2B sales of industrial valves, hoists, and safety equipment** to enterprise clients, handling end-to-end client engagement from prospecting and needs assessment to proposal and closure — growing the assigned account base by **20%** and contributing to a **15% increase in repeat business** within the engagement period.

Project Engineer

Apr 2019 – Apr 2020

EagleBurgmann India

Managed **technical project execution across pre-to-post-sales**, scoping requirements, building product recommendations from EPC requisitions, and coordinating across internal teams and international subsidiaries — standardising sizing and approval workflows, **reducing project implementation time by 57%** and improving overall delivery timelines.

SKILLS

AI and GenAI: AI Use Case Strategy & Definition, LLM Prompt Design, RAG Workflow Planning, AI Agent Use Cases

Product Management: Product Discovery & Roadmapping, PRDs, User Stories & Acceptance Criteria, Wireframing & UX Collaboration, Feature Prioritisation

Agile & Delivery: Agile Delivery, Sprint Planning & Execution, JIRA, Confluence, Stakeholder Management

Research & Analysis: Customer Feedback Synthesis, Data-Driven Decision Making, Design Thinking, User Research, Market & Competitive Research

Technical: API & Data-driven Integrations, REST APIs, Cloud Computing

Business: Sales & Account Management, Marketing Automation, Go-to-Market Strategy

EDUCATION

MBA in Marketing **2020 – 2022**

MIT World Peace University, Pune

B.E. in Mechanical Engineering **2012 – 2017**

Finolex Academy of Management and Technology

CERTIFICATIONS

AI - First Product Management ([View Certificate](#)) **2025**
